

# MX200

Vacuum Controller

The solution for Vacuum Furnaces

www.televac.com

USB, RS-232, and RS-485 Standard

- USB, RS-232, and RS-485 standard
- Fast response time of  $\leq 10$  ms
- Up to 8 sensors displayed simultaneously
- Field upgradable with a modular design
- Expanded gas correction support

## Televac

The Fredericks Company  
2400 Philmont Avenue

| 7B cable - 35 ft                 | 2-9800-42  |

## Did You Know?

- The MX200 now supports Nitrogen/Air, Argon, Hydrogen, Helium, Neon, Krypton, and Carbon Dioxide gases
- Televac is the leading supplier of vacuum gauging for the heat treat industry
- Our cold cathodes are cleanable for extended life, our 7B Penning includes the most robust technology on the market
- We are a Women Owned Small Business
- We offer private labeling for all products
- We've been helping customers solve engineering challenges for over 80 years

## Our Benefit

- Excellent customer service with one-on-one support from engineers
- Proven reliability, providing vacuum measurement solutions since 1935
- Our products are simple to integrate
- USA based manufacturer
